Company Announcement

Escorts Agri Machinery sold 8,816 tractors in September 2021

MoM Volume up by 54.9 percent

Faridabad, October 1st, 2021: Escorts limited Agri Machinery products segment (EAM) in September 2021 sold 8,816 tractors as against 11,851 tractors sold in September 2020, a drop of 25.6 percent year-on-year and growth of 54.9 percent on month-on-month basis

Domestic tractor sales in September 2021 was at 7,975 tractors as against 11,453 tractors in September 2020. With record monsoon activity in September, this year's rainfall deficit has largely been recovered, which augurs well for industry in the upcoming months. However above normal rainfall in September has delayed harvesting in some parts of the country resulting in a two-to-four-week delay in the onset of the festive season demand. All other macroeconomic factors remain favourable. Inflation in various commodity prices continues to be an area of concern in the short term.

Export tractor sales in September 2021 was at 841 tractors against 398 tractors sold in September 2020, registering a growth of 111.3 percent.

Company Announcement

Escorts Construction Equipment sales grew by 8.4 percent in September 2021

MoM Volume up by 30.3 percent

Faridabad, October 1st, 2021: Escorts Ltd. Construction Equipment Segment (ECE) in September 2021 sold 400 machines against 369 machines sold in September 2020 registering a growth of 8.4 percent year-on-year and growth of 30.3 percent on month-on-month basis.

The retail enquiries have seen significant rise month on month, but continuing rains during the month led to deferment of buying decision by majority of the customers. However, we anticipate strong equipment demand in second half of FY22 starting from October'2021 in line with the trend seen during last fiscal. The demand is also likely to get a boost from Government push on infrastructure projects. However, the risk of further inflation in the commodity prices remains a concern
